REQUEST FOR CORRECTED FILING
RECEIPT

Assistant Commissioner for Patents
Office of Initial Patent Examination
Customer Service Center
Washington, D.C. 20231

Sir:

Attached is a redlined, corrected copy of the official Filing Receipt received from the Patent and Trademark Office in the above-noted application for which issuance of a corrected filing receipt is respectfully requested.

There is an error in the "Filing Date" section of the Filing Receipt. The correct "Filing Date" should be as follows:

November 19, 2001

The filing of the above-identified patent application using an Express Mail envelope (having label "EL 265 818 845 US") was attempted on **November 19, 2001**. However, the U.S. Postal Service (USPS) (Post Office located at Hamilton street, Palo Alto, CA) refused to accept the application. This refusal by the USPS was due to a memorandum issued by Patrick R. Donahue, Chief Operating Officer and Executive Vice President of the United States Postal Service (USPS), temporarily and immediately suspending Express Mail service to Washington,

D.C., ZIP Codes 202xx through 205xx (e.g., 20231). The U.S. Patents and Trademark Office designated this interruption in the Express Mail service of the USPS as a postal service interruption within the meaning of 35 U.S.C. 21(a) and 37 CFR 1.6(e).

Per USPTO guidelines, in order to secure the November 19, 2001 filing date, we "re-filed" the sealed Express Mail envelope (with label "EL 265 818 845 US") containing the application on November 21, 2001 via registered mail (Registered No.: RR877651265US) along with a Statement Under 37 CFR 1.6(e) that the USPS refused to accept Express Mail Correspondence on November 19, 2001. Per USPTO rules, the registered mail filing including the statement and the sealed Express Mail envelope containing the application is sufficient for obtaining a filing date of November 19, 2001.

The following documents are attached in support of the request to correct the "Filing Date":

- 1) Copy of the Postcard filed with the application and enclosed in Express Mail envelope (label "EL 265 818 845 US") showing the attempted "Mail Date" of November 19, 2001. The Postcard has been incorrectly stamped 11/30/01 by the USPTO;
- 2) Copy of Express Mail Certificate No. EL 265 818 845 US attached to the sealed Express Mail envelope containing the application, the filing of which was attempted on November 19, 2001;
- 3) Copy of Utility Patent Application Transmittal attached to the application enclosed in Express Mail envelope (Label "EL 265 818 845 US"), the filing of which was attempted on November 19, 2001. The Transmittal contains a certification reciting that the application is being deposited with the USPS "Express Mail Post Office to Addressee" services under 37 CFR 1.10 on November 19, 2001;
- 4) Copy of the Stamped Postcard dated November 21, 2001 attached to the registered mail filing (Registered No.: RR877651265US) that included the Sealed Express Mail Envelope (Label "EL 265 818 845 US") containing the application;
- 5) Copy of the Stamped Registered Mail Certificate No. RR877651265US (date stamped November 21, 2001) attached to the registered mail filing that included the sealed Express Mail envelope containing the application;
- 6) Copy of the SB/21 Transmittal Form submitted for the documents filed via registered mail on November 21, 2001. The Transmittal indicates that the envelope contained a patent application, Attorney Docket No. 15358-007400US, the filing of which was attempted on November 19, 2001; and
- 7) Copy of the "Statement Under 37 CFR 1.6(e) That USPS Refused to Accept Express Mail Correspondence" filed on November 21, 2001 via registered mail along with the sealed Express Mail envelope containing the application.

In light of the above, Applicants respectfully request that the Filing Date for the application be changed to November 19, 2001.

The correction is not due to any error by Applicants and no fee is due.

Respectfully submitted,

S. B. Kotwal

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Preliminary Class

345

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
